

WHY CHOOSE SECURECASH?

Total Flexibility

You can have your banking collected on any day, or days you choose. You also have total flexibility to cancel or change the days of your scheduled collections.

No Lock-in Contracts

We do not lock you into lengthy contracts, so you are free to try our services, and if you find they are not a good fit for your organisation, then you are free to cancel at anytime.

Nation Wide

SecureCash is a one stop cash logistics company, that will manage all your banking and change order services, no matter where you are located in Australia!

eDockets System

Using our industry leading software (created by SecureCash), you are able to "Track and Trace" your banking with a simple click of a button! You are also able to manage your banking services online, 24/7.

Our Services Are Powered By
 **EDOCKETS**

eDockets was created by SecureCash for the Cash in Transit industry.

At any time, you can manage your services through the Online Services Portal - book additional services, cancel an existing service and order change in your required denominations.

You can also access the details of any service we have provided you, from any point in the past. All records are updated instantaneously, so you can check the progress of a current service also.

SERVICE TIMELINE

Who Is SecureCash?

We have been operating in the security industry for over 25 years, since 1992 to be exact. In 2005, we made the decision to overhaul our business model and concentrate solely on Cash in Transit, starting the beginning of the SecureCash era.

We made this decision so that we could give our complete attention to provide the best possible service for our clients.

We strive to constantly evolve and bring innovative solutions to develop our company and make our service experience the best it can be for our clients.

When it comes to your hard earned money you need someone you can trust and rely upon to handle the banking for your business. We take this very seriously and work very hard from our end to ensure all of our systems and protocols can provide that assurance.

The SecureCash Services

Cash Collection

Our **cash collection service** is straight forward and simple to use. When we refer to the term 'cash collection' we simply mean we come to your business, pick up your money, (both cash and cheques) and take it to the bank on your behalf!

Cash Delivery

Another one of our popular cash in transit services that we provide is our **cash delivery service**. We deliver the amount of cash you require broken down into different denominations (Change Order) as requested, delivered direct to your organization.
